City of Olivia
1009 W. Lincoln Ave.
Olivia, MN 5627

By participating in our Green Power Choice program, you can support increased reliance on renewable energy sources by purchasing blocks of energy from Hydroelectric and Wind Power.

What is green power?

Green power is a term used to describe electricity supplied from renewable energy sources such as solar, wind, geothermal, hydroelectric, and biomass.

What is the Green Power Choice Program?

Green Power Choice is a voluntary program offered to customers of the City of Olivia. The program currently offers Hydropower and Wind Power purchased from the Minnesota Municipal Power Agency.

How will purchasing green power affect my monthly bill?

Green Power is offered in blocks of 100 kilowatthours (kWh) for a charge of $1.75 per block. The cost of the green power you purchase is added to your regular electric charges each month. You can choose to purchase any combination of wind or hydro blocks. Signing up is easy! Simply fill out the participation form below and include it in your monthly bill.

Ex, if you choose to buy four blocks (400 kWh) of hydropower, an additional $7.00 will be added to your monthly electric bill. (4 x $1.75 = $7.00)
